I support the continued funding of the lynn canal highway project, the financial plan the state has put forward makes since, once the highway is completed the annual savings can be applied to other statewide transportation needs. I would like to see the highway completed as soon as possible and I also urge the state to keep pursuing the final leg of the highway to Skagway. As a commercial fisherman I have been continuously on record strongly supporting the highway because of the new seafood marketing opportunities the road will offer the fishing industry.
